For over 85 years, Interni has been focusing on sale, design and decoration of homes and offices.

From our headquarter in Verano Brianza, heart of furniture production “Made in Italy”, to our showrooms in Milan and Bergamo, the Interni Group has carried its brand name with the most eminent Italian and International brands of furniture and design.

Interni’s business philosophy is to change each environment into a new concept of living following needs and styles of those who lives there.

A way of thinking that Interni group repeats in the layout of its expositions in every showroom offering the best “tailor made” service. Preciousness in the selection of pieces, in the selection of the materials, solutions made with creativity, all with the highest attention to brands and to clients: from every point of view, Interni represents a choice of a good quality service.
Interni’s history began in 1933, when Leonardo Cazzaniga, founder of the company, assisted by his wife Giulia Citterio, opened a carpentry shop in Verano, in the heart of Brianza. Soon, between the veins of the finest woods, emerges the idea of proposing prestigious pieces of furniture to a selected customers, chosen with the expert eye of someone who knows the secrets of this job.

Thus begins a long journey with the passion for the finest quality and aesthetics.

Over time, the craftsmanship of the origins blends with experience in high-level of interior design and the research of selected partners among the most famous italian and international design companies.

Interni develops thanks to the participation of the second and third generation. Initially, alongside the historic Verano Brianza showroom, the spacious stores in Milan and Bergamo. At the beginning of the new millennium, designing the Interni brand and know-how all over the world, thus becoming a point of reference for the entire field.

A progress pursued with the utmost loyalty to our founder’s motto: “Improving the living environment also improves the quality of life.”

La storia di Interni inizia nel 1933, quando Leonardo Cazzaniga, fondatore dell’azienda, coadiuvato dalla moglie Giulia Citterio, apre una falegnameria a Verano, nel cuore della Brianza. Presto, fra le venature delle essenze più pregiate, affiora l’idea di proporre ad una clientela selezionata pezzi di arredamento di assoluto prestigio, scelti con l’occhio esperto di chi conosce i segreti del mestiere.

Con la partecipazione all’attività della seconda e terza generazione Interni si evolve. Dapprima affiancando allo storico showroom di Verano Brianza gli spaziosi punti vendita di Milano e Bergamo, poi all’inizio del nuovo millennio, proiettando il marchio e il know-how Interni in tutto il Mondo, divenendo così un punto di riferimento per tutto il settore.

Una crescita perseguita con la massima fedeltà al motto del fondatore: “Migliorando l’ambiente di vita si migliora anche la qualità della vita.”
The style of each “brand” translates into practice a philosophy based on a taste for beautiful things and a passion for our work.

But beyond that, into Interni’s style there is something unique: the human value of men and women who have made the history of this company in the past 85 years.

Founders, buyers, designers, and technicians responsible for the logistics and mounting are ready to share at any time and in any context, the love for aesthetics, the knowledge of materials and techniques, the efficiency of proformas and the management of the orders. Last but not least the ability to make feel at home anyone who wants to make his home, his environment, his workplace.

Since its origins Interni has always proved to be not just a furniture store, but a reliable and creative partner to entrust to design any environment.

The ad hoc design, the custom built and customization are just some of the keywords that identify the work of Interni, but thanks to carpenters and a team of professionals attentive to every detail is able to satisfy your requirement.

Whatever your style, your lifestyle, your environment, the size of your space and your personal taste, Interni is able to find and implement the best solution right for you.
When you invest on a brand or a designer, you invest on a series of “plus”: the creativity of a project, the quality of materials, the technological innovation.

It is the intangible charm typical of classic interior design.

Choosing Interni does not mean only choosing the best: it means choosing the maximum.

That’s why the group purchases and sells only the best production pieces, the “best selection” of the brands that give prestige to the catalogue, his home, his environment, his workplace.

Three logistic centers

A “five-star” production capacity deserves a logistics structure able to fearlessly face the unexpected. Especially when it cultivates a global vocation, which guarantees optimal performance in every country and in every habitat.

To address this challenge, Interni relies on an internal logistics structure well structured and organized, that can boast three logistic centers. A “control” panel which take care of the furniture pieces in our warehouses and which delivered them everywhere by air or by sea. Interni loves to travel on the safe side: for this every step of transport is covered by a specific policy.

Per affrontare questa sfida, Interni conta su una struttura logistica interna ben strutturata e organizzata, che può vantare ben 3 centri logistici.

The space, located in the heart of Milan’s Fashion District, wonderfully represents Henge’s experimental spirit: the perfect combination between a showroom and a creative lab, where customers become the protagonist of the design process.

The furniture catalogue of the brand is, in fact, a starting point where the complete customization of living spaces begins. Under the artistic direction of Massimo Castagna, the brand conveys, indeed, its contemporary vision of craftsmanship, leading to a quality manifesto of a luxury that recoils from the impeccability of serial industrial productions and is oriented towards the uniqueness of materials and shapes.
